

The SILI CBZ series horizontal self-priming centrifugal pump has same specification with the CWZ pump, just this pump is in mono-block type, the pump is connected with the pump directly, without inter coupling.

With such design, the CBZ pump installation space is much smaller than CWZ pump. And also its cost is also smaller than the CWZ pump.

Material for pump casing and impeller can be in bronze, stainless steel and cast iron. Shaft is in stainless steel, shaft seal in mechanical seal type.

Pump specification:

For 50Hz pump, in 3phase/50Hz, speed 2900rpm(2 poles)

For 60Hz pump, in 3phase/60Hz, speed 3500rpm(2 poles)

Item	Model	50Hz					60Hz
